A mashrabiya (Arabic: مَشْرَابِيَا), also either shansh?l (شَنْشَل) or r?sh?n (رَشْن), is an architectural element which is characteristic of Arabic residences. It is a type of projecting oriel window enclosed with carved wood latticework located on the second story of a building or higher, often lined with stained glass. The mashrabiya is an element of traditional Arabic ...

Green building (also known as green construction or sustainable building) refers to both a structure and the application of processes that are environmentally responsible and resource-efficient throughout a building's life-cycle: from planning to design, construction, operation, maintenance, renovation, and demolition. This requires close cooperation of the contractor, the architects, the ...
