## **Biorhythmik I: Circadiane Rhythmen und innere Uhren**

Biorhythmik aus der Medizin nicht mehr weg zu denken sei, hat sich leider nicht bestätigt. Denn es scheint heute gerade im medizinischen Bereich so zu sein, dass dieser Wissenschaft kaum mehr Beachtung geschenkt wird. Beginnend vom Tag der Geburt an pulsieren drei Ströme in uns Menschen in verschiedenen Rhythmen = Tagesinter-

Biorhythmik-Experte predigte seinen Schülern, dass sie gegen die Biorhythmen ankämpfen sollen, um sportliche Höchstleistungen zu erzielen. Er mag mit seiner „kontrabiorhythmischen“ Methode eine Zeitlang Erfolg haben. Die Realität spricht aber ein anderes Urteil, wenn viele ausgebrannte junge Sportler und Athleten auf der Strecke bleiben.

Theory. According to the theory of biorhythms, a person's life is influenced by rhythmic biological cycles that affect his or her ability in various domains, such as mental, physical and emotional activity. These cycles begin at birth and oscillate in a steady (sine wave) fashion throughout life, and by modeling them mathematically,...
