Planetary Science - Astronomy Notes

The greenhouse effect is the process by which radiation from a planet's atmosphere warms the planet's surface to a temperature above what it would be without its atmosphere.. If a planet's atmosphere contains radiatively active gases (i.e., greenhouse

gases) they will radiate energy in all directions. Part of this radiation is directed towards the surface, warming it.

Greenhouse effect - Wikipedia

Biology Questions and Answers Form 3 - High School Biology

Human CO₂ is a tiny % of CO₂ emissions “The oceans contain 37,400 billion tons (GT) of suspended carbon, land biomass has 2000-3000 GT. The atmosphere contains 720 billion tons of CO₂ and humans contribute only 6 GT additional load on this balance.

How do human CO₂ emissions compare to natural CO₂ emissions?

Year 10 Science The following curriculum resources are designed for units which follow the Australian Curriculum. Each unit is one term long and will have a central topic such as Chemistry, Biology, Physics, or Geology.

It has been 20 years since two seminal publications about ecosystem services came out: an edited book by Gretchen Daily and an article in Nature by a group of ecologists and economists on the value of the world's ecosystem services. Both of these have been very highly cited and kicked off an explosion of research, policy, and applications of the idea, including the establishment of this journal.

Twenty years of ecosystem services: How far have we come

Your Paper Your Way We now differentiate between the requirements for new and revised submissions. You may choose to submit your manuscript as a single Word or PDF file to be used in the refereeing process. Only when your paper is at the revision stage, will you be requested to put your paper in to a 'correct format' for acceptance and provide the items required for the publication of your ...

Guide for authors - Science of the Total Environment

What is ecosystem science? Ecosystem science is the study of inter-relationships among the living organisms, physical features, bio-chemical processes, natural phenomena, and human activities in ecological communities.
