Blood quantum laws or Indian blood laws are those enacted in the United States and the former Thirteen colonies to define qualification by ancestry as Native American, sometimes in relation to tribal membership. These laws were developed by European Americans and thus did not necessarily reflect how Native Americans had traditionally identified themselves or members of their in-group, and thus ...

Hemoglobin (Approved): Hemoglobin is the essential protein responsible for the transport of oxygen and carbon dioxide and is the major component of blood. This Hemoglobin accounts for about 1/3 of the volume of a red cell. Its approval for use by the Watchtower back in 2000 was startling to long-time observers and most Jehovah's Witnesses alike.
